AIR SPRINGS

INTRODUCING PART NO. 1R14-231 THE NEW GOODYEAR® AIR SPRINGS SUPER CUSHION®

The latest innovation in air suspension technology is here:
Part No. 1R14-231 Goodyear® Air Springs Super Cushion®!
Built to perform in demanding field conditions, this advanced air spring delivers a smoother, more stable ride across uneven terrain. By reducing shock and vibration, it enhances operator comfort, minimizes fatigue during long hours in the cab, and protects sensitive equipment from excessive wear. Super Cushion® air springs also help maintain consistent height and clearance, supporting better boom stability, precise application, and reduced stress on vehicle components. The result: longer equipment life, less downtime, and greater efficiency with every pass through the field.

Engineered with proprietary materials and innovative design to deliver exceptional durability, reduced weight, and enhanced ride comfort. Features like factory alignment, textile reinforcement, and superior vibration isolation help extend equipment life and protect valuable cargo.

PART NO. 1R14-231

FITS: Suspensions for
Sprayer Models

- 4920 / 4930 / 4940 are part of the older generation of large-frame self-propelled sprayers
- R-series (R4045, R4060) are the newer high-capacity models
- 600R, 612R, 616R are mid-size R-series sprayers
