

Introducing Part No. 1S4-232-05 the New Goodyear® Air Springs Super Cushion®

The latest innovation in air suspension technology is here:

Part No. 1S4-232-05 Goodyear® Air Springs Super Cushion®

Built to perform in demanding field conditions, this advanced air spring delivers a smoother, more stable ride across uneven terrain. By reducing shock and vibration, it enhances operator comfort, minimizes fatigue during long hours in the cab, and protects sensitive equipment from excessive wear. Super Cushion® air springs also help maintain consistent height and clearance, supporting better boom stability, precise application, and reduced stress on vehicle components. The result: longer equipment life, less downtime, and greater efficiency with every pass through the field.

Engineered with proprietary materials and innovative design to deliver exceptional durability, reduced weight, and enhanced ride comfort. Features like factory alignment, textile reinforcement, and superior vibration isolation help extend equipment life and protect valuable cargo.

PART NO. 1S4-232-05

*** Hardware kit included - (2) push nuts

FITS: Air spring actuator
